

All you need
to play is
a smartphone!

\Yaechika/ Grand Christmas Smartphone Raffle

Event Period 2025/ **12/3** Wed ▶ **12/25** Thu

How to Play

Jan Joosten

1

After purchasing a meal or product, receive your **QR-code raffle ticket** from the shop!

Purchasing 500 yen (incl. tax) or more from a shop or restaurant will earn you a raffle ticket with QR code. The ticket awarded depends on the amount spent. Tickets come in two types: 500-point and 3,000-point versions.
(Raffle tickets may not be awarded at certain shops or for certain services.)

2

Scan your raffle ticket's QR code, create a **personal account page** and **start collecting raffle points!**

After scanning the QR code, you will be prompted to fill in a few pieces of information to create a personal account page. From your second raffle ticket onward, points will automatically be added to that account.

3

Save up **3,000 points** to play **the smartphone-based raffle game!**

After accumulating 3,000 points, you can use them for one raffle drawing on your account page.

4

If you're chosen as a winner, **carry out prize-claim procedures** **using your smartphone!**

The pick-up method varies depending on the prize won.
